

CONTENTS

Introduction	I-1
Purpose of the Book	I-1
Choosing the Authors for This Book	I-2
Content-Specific Instructional Methods, Universal Instructional Methods, and Grade Level-Specific Instructional Methods	I-2
Special Education and 504 Students	I-2
English Language Learners	I-3
Universal Design for Learning	I-3
Students from Poverty	I-3
Social Emotional Learning (a.k.a. Mental Health of Students and Staff)	I-4
The Importance of Teaching	I-5
Advantages for Students and Teachers of Using the Strategies Contained in This Book to Teach for Mastery	I-5
Chapter-by-Chapter Overview	I-6
Changing Practice	I-9
Students with Disabilities: Legal Requirements	I-10
English Language Learning: Current Trends	I-11
1 Standards-Based (Mastery-Based) Planning and Teaching	1
A Definition of Standards-Based (Mastery-Based) Teaching	1
Levels of Mastery	2
Standards-Based Unit Planning and Standards-Based Lesson Planning	5
Standards-Based Unit Planning	20
Role of Standards in Unit Development	22
Additional Sample Lesson Plans	27
Students with Disabilities: Standards-Based Education	37
English Language Learners and Teacher Collaboration	39

2	Creating a Cognitive Context for Learning	43
	Before They Walk Through Your Classroom Door	43
	Strategies for Beginning Class	45
	Strategies for Beginning a Unit	55
	Strategies for Maximizing Student Learning	57
	Strategies for the Close of Class	67
	Conclusion	73
	Students with Disabilities: Executive Functioning, Memory, Chunking, Activators, and Homework	75
	English Language Learners and Creating a Cognitive Context for Learning	77
3	The Social, Emotional, and Instructional Components of Classroom Management	81
	Variables to Consider When Constructing a Classroom Management Plan	82
	Factor 1: Beliefs	82
	Factor 2: Classroom Management and Teacher-Student and Student-Student Relationships	85
	Factor 3: Arranging the Classroom Space and the Teacher’s Proximity to the Students	88
	Factor 4: Rules, Routines, and Expectations	90
	Factor 5: Obtaining, Maintaining, and Regaining Student Attention Strategies	110
	Factor 6: Student Self-Assessment of the Expectations for Routines Using Rubrics and Criteria Sheets	112
	Factor 7: Reinforcement of Appropriate Behavior and Consequences for Inappropriate Behavior	117
	Factor 8: Engaging Teaching	120
	Factor 9: Teacher Consistency in Classroom Management	121
	Conclusion	129
	Additional Information about Reading for Understanding	129
	Sample Group Work Activities	130
	Students with Disabilities: Classroom Management	134
	English Language Learners and Classroom Management	136
4	Using Teacher-Made, Local, State/Provincial, and National Assessments to Inform Instruction	139
	Definition and Purpose of Assessment	139
	Pre-Assessments, Formative, Interim, Benchmark, Common, and Summative Assessments	144
	Local Assessment Validity and Reliability	148
	Determining Which Formative Assessments Provide Useful, Actionable Data	148
	Standards-Based Grading and Reporting	153
	Separating the Student’s Level of Proficiency from a Student’s Habits of Work	156
	Performance Assessment and Product Assessment	156

Gathering Information about Learning (Data Collection)	160
Student Self-Assessment: A Key Ingredient in the Assessment Process	164
Rubrics	180
District, State, and National Assessments	195
Conclusion	204
Students with Disabilities: Assessing Learning	208
English Language Learners and Using Teacher-Made, Local and State Assessments to Inform Your Instruction	210

5 Questioning, Dipsticking, and In-the-Moment, “Short-Cycle” Formative Assessments That Target Mastery 213

Purposes of Questioning	214
The Questioning Process for Teachers	214
Asking Students Questions	219
Between Asking and Answering	229
Responding to Students’ Answers	231
Demand and Cognitive Complexity	238
Assessing Student Learning to Inform and Target Instruction	240
Accountable Talk: Improving the Quality of Student Responses	246
Purposeful Group Work	257
Conclusion	261
Students with Disabilities: Effective Questioning Practices	264
English Language Learners: Four Language Domains	265

6 Differentiating Instruction with a Connection to Universal Design for Learning 269

What Is Differentiated Instruction?	269
The Role of the Teacher	276
Grading and the Differentiated Classroom	277
Establishing Routines in the Differentiated Classroom	278
Differentiating by Readiness	279
Differentiating Instruction for Varied Learning Profiles, Gender, and Culture	287
Gaps in Achievement	294
English Language Learners	299
The Advanced Learner (a.k.a. the Gifted and Talented Learner)	300
First Steps to Differentiating Your Instruction Based on Learning Profile	301

Differentiating by Interest through Project-Based Work	303
Differentiating Content (Information and Skills), Process, and Product	307
Using Instructional Strategies to Differentiate Instruction	309
Bloom's Taxonomy	319
Assessing and Improving Your Lessons by Increasing Differentiation	321
Conclusion	321
Students with Disabilities: Differentiating Instruction	332
English Language Learners: Differentiating Instruction for Subgroups of ELLs	334

7 Student Motivation and Succeeding with Students from Poverty 339

Effective Teaching and Intelligence Theory, and Their Connection to Motivation	340
Intelligence as a Single Entity and Primarily Due to Heredity	347
Intelligence as Having Multiple Components That May Be Enhanced by Home and School Factors	350
Learnable Intelligence	352
Making Kids Smarter in Schools	354
Strategies for Motivating Students by Developing an Incremental Belief about Intelligence (Growth Mind-Set)	355
Examples of Developing in Students Strategies That Will Make Them Smarter	362
Developing Proficient Mathematical Problem Solvers	368
Conclusion	370
Students with Disabilities: Intelligence and Motivation	373
English Language Learners: Motivating Linguistically Diverse Learners	375

8 The Brain and Student Learning 379

Introduction	379
Nuts and Bolts of the Brain	380
The Brain and Learning	381
The Brain and Memory	384
The Brain and Reading	386
The Brain and Mathematics	388
The Brain and the Arts	389
Left Brain vs. Right Brain: A Neuro Myth	390
Critical vs. Sensitive Learning Periods: A Neuro Myth	391
Gender, Cognitive Science, and Schooling: A Neuro Myth	392
Multiple Intelligences Theory	392

Learning Systems Theory	393
Strategies for Brain-Compatible Learning	394
Mind and Brain Education and the Future	405
Conclusion	406
Students with Disabilities: Brain Function	409
English Language Learners: The Brain and Language Acquisition	412

9 Working Effectively with Parents and Guardians 417

Strategies for Increasing Success in a Difficult Parent/Guardian Conference	420
Involving the Uninvolved Parents and Guardians	426
Case Studies of Difficult Parent/Guardian Conferences	431
Parent/Guardian Conference Tips for the Parent or Guardian	432
Year-Round Learning	433
Tips for Successful Curriculum Nights for Parents/Guardians	436
Tips for Successful Curriculum-Night Presentations for Parents/Guardians	437
Social Media and Texting	440
Sample Newsletters and Websites for Parents/Guardians	440
Student Portfolios as a Means of Communicating to Parents/Guardians	449
Effectively Using Email for Parent/Guardian Communication	449
Conclusion	450
Students with Disabilities: Student Involvement in the Process	453
English Language Learners: Home-School Communication	462

10 Co-Teaching: Developing High-Performing Teams 467

What Is Co-Teaching?	467
Research Base for Cooperative Teaching (Co-Teaching)	468
The Models of Co-Teaching: Strengths and Challenges	474
Working with Para-Educators or Instructional Assistants	482
Becoming a Value-Added High-Performing Co-Teaching Team	488
Sharing Decision-Making Power	506
Conclusion	507
Students with Disabilities: Co-Teaching	508
English Language Learners: Co-Teaching as a Response to the Rise in Their Population Numbers	512

11 Job-Embedded Professional Development 517

The Power of Collaboration	518
The Power of Job-Embedded Practice	520
Professional Learning Standards	520
Improvement Cycle for All Collaborative Inquiry Groups	525
Professional Learning Communities: Three Big Ideas to Guide the Implementation of PLCs	529
Data Team Inquiry Groups	530
Collaborative Inquiry Groups: Peer-Reflection Teams	532
Peer-Facilitated Classroom Research	535
Lesson Study Inquiry Group	542
Peer-Observation Inquiry Group	544
Creating a Common-Assessments Inquiry Group	562
Study Groups: Student-Work Inquiry	564
Study Groups with a Focus on Research and Professional Reading	569
Conclusion	569
Appendix A: California Standards for the Teaching Profession	570
Students with Disabilities: Transition Planning	573
English Language Learners and Teacher Collaboration	578

Index 583
