## Classroom Teacher Rubric

This guide is designed to identify the specific, observable behaviors that represent each of the elements in the Massachusetts Department of Elementary and Secondary Education Teacher Performance Rubric. The research on creating positive change in student performance, by changing teacher performance, stresses the importance of giving teachers specific, observable recommendations for improvement. Recommendations that tell teachers “what” to do and “how” to do it. When those observable behaviors are tied to a teacher’s evaluation, that level increases exponentially.

The four level teacher performance rubric created by the Massachusetts DESE was designed to be general enough for local districts to assign their own specific observable behaviors to represent each of the elements. Unlike some state rubrics, which have 50 or 60 pages of specific elements, the ESE rubric is only 15 pages long. The advantage to a more general document is that local districts have more control in deciding the observable behaviors that represent the elements. The challenge for districts when there is a general rubric is that they now need to connect the elements to specific observable behaviors to insure there is complete transparency of expectations across the district and inter-rater reliability among the evaluators. Ribas Associates has now done that difficult work for you.

The connection document also makes for easy within and across building calibration of ratings. All administrators can now expect the same specific teacher strategies to represent successful practice in each of the 33 elements. This inter-rater reliability insures that a teacher’s performance rating is based on objective performance and not dependent who is doing the evaluation.

To assist districts with this task we have connected the elements in the rubric with resources that are universal to all Massachusetts School Districts. These include the Massachusetts Common Core, the MCAS, and the book: ***Instructional Practices That Maximize Student Achievement.*** (Ribas, Brady, Tamerat, Deane, Greer, & Billings 2017)

## STANDARD I: Curriculum, Planning, and Assessment

*The teacher promotes the learning and growth of all students by providing high-quality and coherent instruction, designing and administering authentic and meaningful student assessments, analyzing student performance and growth data, using this data to improve instruction, providing students with constructive feedback on an ongoing basis, and continuously refining learning objectives.*

### Indicator I-A. Curriculum & Planning

Knows the subject matter well, has a good grasp of child development and how students learn, and designs effective and rigorous standards-based units of instruction consisting of well-structured lessons with measurable outcomes.

#### Exemplary

<b>I-A-1. Subject Matter Knowledge</b>	Demonstrates expertise in subject matter and the pedagogy it requires by consistently engaging all students in learning experiences that enable them to acquire, synthesize, and apply complex knowledge and subject-specific skills and vocabulary, such that they are able to make and assess evidence-based claims and arguments. Models this practice for others.	<ol style="list-style-type: none"><li>1. Teaches the content found in the state/district curriculum frameworks and/or the Common Core.</li><li>2. Teaches the district prescribed content/curriculum for the population (e.g., ACE)</li><li>3. Can explain the information and skills contained in the Massachusetts Curriculum Frameworks and the Common Core during discussions with supervisors and colleagues and in the district prescribed curriculum</li><li>4. Can describe the specific pedagogy (in addition to the universal pedagogy found later in this standard and in Standard II) for his or her student population.</li></ol>

## Indicator I-B. Assessment

Uses a variety of informal and formal methods of assessments to measure student learning, growth, and understanding to develop differentiated and enhanced learning experiences and improve future instruction.

### Exemplary

<p><b>I-B-1.</b> <b>Variety of Assessment Methods</b></p>	<p>Designs and administers a comprehensive system of informal and formal assessments, including common interim assessments and ongoing progress monitoring methods, to measure each student’s learning, growth, and progress toward achieving state/local standards. Models this practice for others.</p>	<ol style="list-style-type: none"> <li>1. Uses all types of assessments to inform instruction, teacher-made, local, state/provincial, and national</li> <li>2. Uses formative assessments to target mastery: questioning, dipsticking, “in-the-moment,” and short-cycle assessments (Chapter 5) Developing questions before class that focus on the lesson’s purpose gb 217-220</li> <li>3. Uses an appropriate blend of recall, comprehension, and higher order questions to support learning gb 220-221; gb 228-229</li> <li>4. Creates a safe classroom for asking questionsgb 225</li> <li>5. Use wait time I and I to increase student comprehension and engagement gb 229-231</li> <li>6. Uses dipsticking techniques to maintain ongoing assessment and support of students gb 216-217</li> <li>7. Manages space and proximity to check understanding gb 88-90</li> <li>8. Avoids asking multiple questions in quick succession gb 227</li> <li>9. Provides extra wait time and/or pre-alerts for ELL students or special education students who have auditory processing issues</li> <li>10. Provides effective corrective feedback gb 232-234</li> <li>11. Uses effective praise gb 231-232</li> <li>12. Includes all students in discussions Q and A gb 215-216</li> <li>13. ## Indicator I-B. Assessment

Uses a variety of informal and formal methods of assessments to measure student learning, growth, and understanding to develop differentiated and enhanced learning experiences and improve future instruction.

### Exemplary

<p><b>I-B-2. Adjustments to Practice</b></p>	<p>Regularly organizes and analyzes results from a variety of assessments to determine progress toward intended outcomes and uses these findings to adjust practice in real-time and in upcoming lessons or units by (a) identifying and/or implementing appropriate differentiated interventions and enhancements for all students, and (b) making appropriate modifications to lessons and units. Models this practice for others.</p>	<ol style="list-style-type: none"> <li>1. Uses teacher-made, local, state/provincial, and national assessments to inform instruction and planning(Chapter 4)</li> <li>2. ## Indicator I-C. Analysis

Analyzes data from assessments, draws conclusions, and shares them appropriately.

### Exemplary

<p><b>I-C-1. Analysis and Conclusions</b></p>	<p>Draws appropriate, actionable conclusions from a thorough analysis of a wide range of assessment data to inform short- and long-term instructional decisions that improve learning for all students. Models this practice for others.</p>	<ol style="list-style-type: none"> <li>1. Knows which assessments to analyze to understand student performance and the impact of his or her teaching on student performance.</li> <li>2. Can explain the assessment data to individuals and groups of students for whom he or she is responsible and explain specific actions for students to improve student performance.</li> <li>3. When communicating with colleagues about student assessment data respects team norms and stages of group development (see gb 522) works to bring the group to the highest stages of Collegial Professional Development Groups.</li> </ol>

## Indicator I-C. Analysis

Analyzes data from assessments, draws conclusions, and shares them appropriately.

### Exemplary

<p><b>I-C-2. Sharing Conclusions With Colleagues</b></p>	<p>Proactively and regularly shares conclusions and insights about student progress with all appropriate colleagues. Seeks and applies feedback from them about instructional and assessment practices that will support improved student learning.</p>	<ol style="list-style-type: none"> <li>1. When communicating with colleagues, respects team norms (see sample team norms and stages of group development on gb 522) to bring the group to the highest stages of Collegial Professional Development Groups.</li> <li>2. Accomplishes the goals of this element using appropriate collegial professional development activities such as peer reflection teams (gb 532-535), peer facilitated classroom research (gb. 535-541), lesson study (gb. 542-544), peer observation (gb. 544-559), examining student work (gb. 564-568), and professional reading study groups (gb 569).</li> </ol>
<p><b>I-C-3. Sharing Conclusions With Students</b></p>	<p>Establishes regular feedback loops with students that support constructive conversation about student performance, progress, and improvements based on assessment data. Models this practice for others.</p>	<ol style="list-style-type: none"> <li>1. Insert here the district systems for reporting to parents]</li> <li>2. Students can tell an observer what components of the information and skills they are learning they have mastered and what remains for them to master.</li> <li>3. Teacher interacts with students in ways that assist students in understanding their levels of mastery on the information and skills being taught (see levels of mastery gb. 2-3)</li> <li>4. Demonstrates the characteristics of effective communication and conferencing with parents and guardians (see gb. 420-426).</li> <li>5. Cultivates an environment of student self-advocacy (gb. 573)</li> </ol>

## STANDARD II: Teaching All Students

*The teacher promotes the learning and growth of all students through instructional practices that establish high expectations, create a safe and effective classroom environment, and demonstrate cultural proficiency.*

### Indicator II-A. Instruction

Uses instructional practices that reflect high expectations regarding content and quality of effort and work; engage all students; and are personalized to accommodate diverse learning styles, needs, interests, and levels of readiness.

#### Exemplary

<b>II-A-1. Quality of Effort and Work</b>	Consistently demonstrates high expectations for the quality of student work and the perseverance and effort required to produce it; supports students to set high expectations for themselves and for each other to produce high-quality work. ## Indicator II-C. Student Learning

Demonstrates expected impact on student learning based on multiple measures of student learning, growth, and achievement. For teachers who are responsible for direct instruction, these measures must include student progress on common assessments and, where available, statewide student growth measures.

---

The model rubrics describe *educator practice* and provide clear criteria across four performance levels that focus on the educator’s actions and behaviors.

The Student Learning Indicator is about the *impact of those actions relative to student learning*. Did students learn as much as educators set out to teach?

For teachers, evidence of impact on student learning based on multiple measures of student learning, growth, and achievement must be taken into account by the evaluator when determining a performance rating for Standard II. Because evaluators are not required to make a rating determination for any individual Indicator, this allows them to consider evidence of impact alongside evidence of practice when determining a rating for Standard II. **There are no associated elements or performance descriptors for the Student Learning Indicator.**

Evaluators and educators should identify the most appropriate assessments of student learning and anticipated student learning gains associated with those measures when developing the Educator Plan.
